Eurocopter EC 135 ADAC

The EC 135 is a state-of-the-art light helicopter with most of its airframe made of fibre composites. The cabin can accommodate 7 passengers or a complete set of rescue equipment. In addition it has good accessibility and loading capabilities. It has a Fenestron shrouded tail rotor to reduce noise and prevent accidents. Since 1970 the ADAC has proved that the efficiency of emergency rescue services can be considerably improved if doctors are transported by helicopter and this has given a great impetus to development. The ADAC air rescue service has had the EC 135 in service since the beginning of 1997 and therefore operates one of the most economical low-maintenance helicopters.
Read before you start!

In the delta of the Copper River, Otis: november 1941, Alaska, the landscape is beautiful but the weather can be unpredictable. The river is fertilized with nutrients from the surrounding forests and tundra, creating a rich ecosystem. The only way to access this region is by air, as there are no roads. The area is home to a variety of wildlife, including bears, wolves, and caribou. The river itself is a major source of salmon, which is an important food source for many animals. The river is also a popular spot for fishing and boating.

To reach the delta, you will need a plane or a helicopter. The nearest airport is about 100 miles away and there is a small airstrip at the river's mouth. The weather can be unpredictable, so be prepared for changes. It is important to be respectful of the local wildlife and the environment.

Before you set out, make sure you have all necessary equipment and supplies. The river can be dangerous, so it is important to be prepared for any emergency.

On your journey, you will need to be careful of the wildlife. The river is home to a variety of animals, including bears and wolves. It is important to keep a safe distance from these animals and to never feed them.

Remember to respect the environment and to leave no trace. This is an important part of conservation and sustainability. By respecting the environment, we can ensure that future generations will be able to enjoy this beautiful landscape as well.

We hope you enjoy your journey and that you will take the time to appreciate the beauty of the Copper River delta.

---

Read the instructions thoroughly before proceeding. Follow all safety guidelines at all times. Keep a safe distance from wildlife and do not feed them.

---

For the adventure, you will need:
