Peterbilt 359 Conventional

When one thinks of American trucks the Peterbilt 359 Conventional is the first one that comes to mind. Their durability combined with a virtually unchanged appearance has led to a universal presence of these trucks on American highways since the mid-60s. The owners, often drivers operating alone did everything they could to turn their truck into the best thing that a man could own. Powerful engines from Caterpillar, Cummins or Detroit Diesel with up to 600 bhp, lightweight aluminium cab, bonnet and rims, chromed exhausts, fuel tanks and bumpers turned each truck into his very own "King of the Road". On the long "Coast to Coast" journeys he has his own "home" with him which gives him a feeling of total independence. The dream of the "American way of drive" has for decades been, and still is the Peterbilt 359 Conventional.
