Step 10

When applying stickers, avoid touching the "sticky" side to prevent finger prints on stickers. Bend sticker sheet slightly to lift edge of sticker & use a fingernail to lift sticker from sheet. Line up sticker on body and press an edge into place, slowly working sticker with a fingernail until sticker is fully on model.

NOTE:

REMARQUE :
Pendant l’application des autocollants, éviter de toucher à la face collante pour ne pas laisser d’empreintes. Plier légèrement la feuille d’autocollants pour relever le bord d’un autocollant, et le détacher de la feuille avec le bout d’un ongle. Aligner l’autocollant sur la carrosserie, appuyer pour coller un de ses bords, et continuer de l’appliquer lentement à l’aide du bout d’un ongle, jusqu’à ce qu’il soit complètement collé sur le modèle réduit.
