The 2006 Dodge Magnum SRT8 is one of the most popular cars on the road today. Super hot muscle car power plus serious utility equals motoring bliss. The Magnum's outrageously powerful 6.1-liter 425-horsepower HEMI® V8 transfers all those horses and 420 lb-ft of torque to the pavement through an all-new independent five-link drive layout. The styling is as bold as the engine—Magnum SRT8 sports a long hood, aggressive front grille, clean sweeping roofline, and massive 20-inch wheels. It's also uncommonly versatile, with a spacious interior with all the bells and whistles, 60/40 split fold seats, "extreme access" liftgate, and trailer towing capability. With Dodge Magnum's hot rod mentality, this "station wagon" can light up the tires and achieve 0-60 mph in less than 6 seconds! Your Revell kit has a detailed HEMI® engine with opening hood and hinged tailgate with accessory guitar load. New 20" stock or custom wheels and authentic factory stock and custom stripe decals.
