'53, '54 CHEVY GASSER

The 1953, '54 Chevy Sedan represents the end of an era in automobile history. It was one of the last great Chevy designs preceding the small block V-8's. The 1954 Sedan was affectionately known as the "Stovebolt" because of it's big heavy rugged, but simple design.

Your authentic detailed 1:25 Revell Chevy Gasser model represents a typical semi-pro drag racer that competed back in the 60's heyday of drag racing. It has a big blown "409", custom wheels with drag slicks, highboy suspension, parts to make a 1953 version and even a set of scale tools! Colorful drag race waterslide decals are also included to make this a vintage drag race classic model.

**Decal Application Instructions**

1. Cut desired decal from sheet.
2. Dip decal in water for a few seconds.
3. Place wet decal on paper towel.
4. Wait until decal is movable on paper backing.
5. Place decal in position on model, face up and slide backing away.
6. Press out air bubbles with a soft damp cloth.
7. Mildness that may appear is for better decal adhesion and will dry clear. Wipe away any excess adhesive.
8. Do not touch decal until fully dry.
9. Allow the decals 48 hours to dry before applying clear coat.

**NOTE:** Decals are compatible with setting solutions or solvents.

This paint guide is provided to complete this kit as shown on the box.
