Much has been written and spoken over the last eleven years about Jeff Gordon’s dominance of the NASCAR® Cup division. As of this writing, Jeff is 32 years of age and has already amassed 61 wins, four Cup Championships, two Daytona 500 wins...well, you know, the list goes on for quite a while. The reason this is especially notable and the reason why Jeff’s age is mentioned is that barring any career ending injury or voluntary exit from the series, it’s generally thought that Jeff still has a good fifteen or more years ahead of him in the driver’s seat. If any driver had a chance to attain the magical eighth Cup Championship that eluded both Richard Petty and the late Dale Earnhardt, it’s Jeff.

Yet, time goes on and Jeff Gordon is no longer the young whiz kid but a seasoned veteran although he’s still younger than the majority of competing drivers. What does the future hold? It’s hard to predict how many more records Jeff can break and how many more races he can win. Jeff’s amazing success over the years has also spurred NASCAR® race team owners to bring in younger and younger drivers to their own programs. Ironically, those young guns have also shown an amazing ability to quickly acclimate themselves to the difficulties of professional auto racing, winning pole positions and races and providing Jeff Gordon a reason to keep a look out over his shoulder. The new drivers are coming up quickly and they all look to Jeff as their inspiration—and competition.

Jeff can’t rest on his laurels for long and neither can Revell-Monogram. While our 1:24 NASCAR® glue kits have long been the leaders of the market, constant changes made by the sanctioning body require us to continue to change and improve our kits for you, our customers. If you have built our race car kits previously, you’ll notice how many changes we’ve made to our Monte Carlo™ stocking. Besides revising the decal sheets to accurately depict how the #24 looks as it streaks across the track and your TV screen during the 2003 season, we’ve also made substantial revisions to the chassis. Look for a more realistic drivers seat, rear springs, front & rear shocks, rear end cooler detail, front engine detail and much more.

### DECAL APPLICATION INSTRUCTIONS

1. Cut desired decal from sheet.
2. Dip decal in water for a few seconds.
3. Place wet decal on paper towel.
4. Wait until decal is movable on paper backing.
5. Place decal in position on model, face up and slide backing away.
6. Press out air bubbles with a soft damp cloth.
7. Check the fit of each piece before cementing in place.
8. Do not touch decal until fully dry.
9. Allow the decals 48 hours to dry before applying clear coat.

### DIRECTIVES D’APPLICATION DES AUTOCOLLANTS

1. Découper l’autocollant désiré de la feuille.
2. Tamponner la partie à coller dans l’eau pendant quelques secondes.
4. Attendre que l’autocollant puisse être déplacé sur son support en papier.
5. Mettre l’autocollant en position sur le modèle face sur le dessus et faire glisser le support pour l’enlever.
6. Appuyer avec un chiffon doux humide pour éliminer les bulles d’air.
7. La substance laiteuse qui peut apparaître est destinée à améliorer l’adhésion de l’autocollant et devient incolore au séchage. Essuyer pour enlever tout excédent d’adhésif.
8. Ne pas toucher l’autocollant tant qu’il n’est pas bien sec.

### Ce guide de peinture est fourni pour reproduire le modèle réduit qui apparaît sur la boîte.
