Krupp Titan SWL 80

Am 20. November 1811 gründete der Kaufmann Friedrich Krupp eine neue Firma mit dem Namen "Fried. Krupp". Der Durchbruch gelang Krupp mit der Entwicklung des nahtlos gewalzten Eisenbahn-Radreifens. 1887 übernahm Sohn Friedrich Krupp die Firma und entwickelte zusammen mit Rudolf Diesel den ersten Dieselmotor zur Serienreife. Erst 1919 baute man den ersten Lastwagen, ein 5-Tonner mit 45 PS Motor, Vollgummireifen und Viergang-Getriebe. Im Oktober 1950 wurde auf dem Pariser Autosalon der Krupp-Titan der Öffentlichkeit vorgestellt. Alles war neu, besonders der Motor vom Typ SW 6 ein Sechszylinder-Zweitakt-Diesel mit 210 PS. Auch das Fahrgestell wurde überarbeitet, so bekam der SWL 80 -wie er in der Ausführung als 8-Tonner Pritschenwagen bezeichnet wurde- eine geräumige Kabine, welche 4 Personen Platz bot. Äußerlich hatten sich die Südwerke-Formgestalter stark an dem Styling amerikanischer Personenvanen orientiert. Wie ein stolz aufgerichteter Hahnenkamm zieht sich eine Chromleiste über die gesamte Motorhaube und auch die drei Krupp-Ringe zieren die gewaltige Rundhaube. Revell liefert diesen Lastwagen-Klassiker nicht nur als perfekten Bausatz, sondern auch mit der Möglichkeit, das Modell wahlweise mit Abziehbildern der heute noch in Dortmund ansässigen Firma Vogt-Westfälischer Fernverkehr oder der Spedition Hoffmann in Oberhausen auszustatten.

Krupp Titan SWL 80

On 20th November 1811 a businessman called Friedrich Krupp founded a new firm trading as "Fried. Krupp". Krupp made his breakthrough with the development of the seamless rolled railway wheel tyre. In 1887 Friedrich Krupp junior took over the firm and, together with Rudolf Diesel, developed the first Diesel engine for the production tyre. It was not until 1919 that the first truck was built, a 5 tonner with 45 hp engine, solid rubber tyres and four-speed gearbox. The Krupp Titan was presented to the public in October 1950 at the Paris Motor Show. Everything was new, particularly the type SW 6 six-cylinder two-stroke 210 hp Diesel engine. The chassis was also redesigned, giving the SWL 80 - as the 8 tonne platform truck was known - a roomy cab with space for 4 people. Externally the Südwerke designer relied heavily on the styling of American cars. A chrome strip runs along the bonnet like a proudly raised cockscomb and the powerful rounded bonnet is decorated with the three Krupp rings. Revell supply this classic truck, not just as a perfect modelling kit, but also so that the model can be made with optional decals for the firm Vogt-Westfälischer Fernverkehr which still exists in Dortmund or the Spedition Hoffmann in Oberhausen.
